MEMORANDUM FOR: Lieutenant General James A. Williams

Director, Defense Intelligence Agency

SUBJECT:

Support for NATO

The DDCI wanted you to be aware that he has asked, with the DCI's concurrence, CIA/DDI to begin working out the details for letting General Rogers brief NATO leaders from overhead photography or actually pass them the photography whenever a crisis condition develops. During a 9 May meeting, the General impressed the DDCI with the difficulty he had in trying to get NATO policymakers to mobilize or take defensive actions when the Soviets were mobilizing in contiguous areas. They both agree that briefing from overhead photography could be very helpful under these conditions. The DDCI has emphasized that this arrangement would only exist during crisis conditions.
